SSI-CG integrates intelligent transportation systems (ITS), connecting roadway data, field communications and camera views. We support usable traffic information, analysis, defined access and owner/operator handoff.

TRAFFIC INFORMATION & DATA

Define monitoring goals and roadway-data needs. Coordinate field devices and communications to bring information into usable views for owners and operators.

NAICS 541512 - systems integration

ANALYTICS & REVIEW

Support roadway-data analysis and presentation. Plan information and event-review needs around the operator's goals and available system data.

NAICS 541512 - systems integration

ROADSIDE CCTV

Install and integrate roadside cameras and communications. Plan coverage, remote viewing, event review and authorized access.

NAICS 238210 - wiring / system installation

MONITORING & HANDOFF

Document camera names, locations, access and monitoring expectations. Identify closeout information, service access and follow-up support needs.
